B	Separation decreases, and there's significant potential for collision; critical corrective/evasive actions taken
C	Incident characterized by ample time and/or distance to avoid a collision
D	An incident that meets the definition of a runway incursion
E	An incident in which insufficient or conflicting evidence of the event precludes assigning another category

**There are 3 pilot deviations pending classifications - ASO has 2 and AWP has 1. These are still under review for additional information and pilot statements.
